Date: 9 March 2010

**Affected Products:** Duct Detector Housing for Intelligent detectors
Conventional Duct Detector
4-Wire Duct Detector

Notifier is pleased to announce the release of versatile InnovairFlex™ duct smoke detector line. With InnovairFlex, one unit can accommodate multiple installation footprints to overcome mounting constraints - a first for duct smoke detectors.

The new InnovairFlex™ range includes the following variants;
- DNR – Duct detector housing for intelligent photoelectric detectors
- DNRW – Weatherproof photoelectric duct smoke detector housing for intelligent photo detectors
- D2 – Conventional photoelectric duct detector
- D4120 – 4-Wire photoelectric duct detector for use with 24Vdc, 24Vac, 120Vac
- D4120W – Weatherproof photoelectric duct detector for use with 24Vdc, 24Vac, 120Vac

The new InnovairFlex™ range has the following features;
- Sampling tubes can be install from front or back of the detector
- Versatile mounting options: square or rectangular configuration
- Increased wiring space
- Compatible mounting points with FSD-751, DH100LP

## Ordering Information:

| Part # | Description | Trade Price |
|---|---|---|
| FG-02-005 | D2-AUS – Photoelectric conventional 2-wire duct detector - includes detector | $220- |
| FG-01-051 | DNR-AUS - Duct detector housing for intelligent photoelectric detectors | $150- |
| FG-01-052 | DNRW-AUS – Watertight duct detector housing for intelligent photoelectric detectors | $180- |
| FG-02-011 | D4120 – Photoelectric 4-wire duct detector (24VDC, 24VAC, 120VAC) - includes detector | $300- |
| FG-02-010 | D4120W – Watertight Photoelectric 4-wire duct detector (24VDC, 24VAC, 120VAC) – includes detector | $360- |
| FG-01-006 | DST-1.5 - Duct detector sampling tube to suit duct 0.3m to 0.6m | $15- |
| FG-01-007 | DST-3 - Duct detector sampling tube to suit duct 0.5m to 1.2m | $20- |
| FG-01-008 | DST-5 - Duct detector sampling tube to suit duct 1.2m to 2.4m | $30- |
| FG-01-009 | DST-10 - Duct detector sampling tube to suit duct 2.4m to 3.7m | $37- |
| FG-01-010 | ETX – Duct Detector Exhaust Tube | $15- |

## Model Number Cross Reference:

| Innovair Flex Model | Description | Sensor | Replaces |
|---|---|---|---|
| D2-AUS | Photoelectric conventional 2-wire duct detector - includes detector | Included | DH100LP |
| DNR-AUS | Duct detector housing for intelligent photoelectric detectors | Not included FSP-851/SDX-751 sold separately | FSD-751 |
| DNRW-AUS | Watertight duct detector housing for intelligent photoelectric detectors | Not included FSP-851/SDX-751 sold separately | New |
| D4120 | Photoelectric 4-wire duct detector (24VDC, 24VAC, 120VAC) - includes detector | Included | DH100ACDCLP |
| D4120W | Watertight Photoelectric 4-wire duct detector (24VDC, 24VAC, 120VAC) – includes detector | Included | DH100ACDCLWP |
| | | | |
| DST-1.5 | Duct detector sampling tube to suit duct 0.3m to 0.6m | NA | ST-1.5 |
| DST-3 | Duct detector sampling tube to suit duct 0.5m to 1.2m | NA | ST-3 |
| DST-5 | Duct detector sampling tube to suit duct 1.2m to 2.4m | NA | ST-5 |
| DST-10 | Duct detector sampling tube to suit duct 2.4m to 3.7m | NA | ST-10 |
| ETX | Duct detector exhaust tube | NA | A2440-00 |

If you have any question please do not hesitate to contact me.

Sincerely,

James Edwards
