

Date: 12th August 2010

Affected Products: JTW-LD-x-8687 – Linear Heat Detection Cable
8687/EOL – End of Line Box 47K
MB – Junction box

Notifier is pleased to announce the release of a range of Linear Heat Detection from System Sensor. The linear heat detection cable provides a range of temperatures to best suit the environment and can be easily connected to a conventional zone or addressable input module for continuous thermal protection.

Features:

- Line coverage for continuous sensitivity.
- Withstands severe environmental conditions
- Easy to install, test and splice.
- Range of fixed temperature alarm points.

Typical Applications:

- Cable tunnels or corridors
- Industry processing and material transportation systems
- Warehouse and pallet racking
- Electrical distribution systems such as transformer, motor control centre and other electric switching devices.

Ordering Information:

Part #	Description	Trade Sell
FG-59-001	JTW-LD-70-8687 - Linear Heat Cable 70°C fixed temperature	\$12- /m
FG-59-002	JTW-LD-85-8687 - Linear Heat Cable 85°C fixed temperature	\$12- /m
FG-59-003	JTW-LD-105-8687 - Linear Heat Cable 105°C fixed temperature	\$12- /m
FG-59-004	8687/EOL - 47k End of Line Box	\$25-
FG-59-005	MB – Linear Heat Detector Junction Box	\$25-
