

Date: 4th December, 2007

Affected Products:	12026 – 2151BAUS conventional photo-optical detector
---------------------------	--

Notifier is pleased to announce the release of the System Sensor 2151BAUS conventional photo-optical detector. This new detector has the following features;

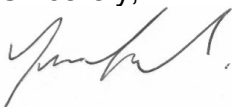

- Improved aesthetics with sleek low-profile design similar to FSP-851.
- Improved chamber design for improved false alarm immunity.
- Fits universal B401 series of bases.
- Interchangeable with 2151AUS
- Ability to be interrogated by the sensitivity reader so as to determine its level of contamination.

For the purpose of retro-fitting existing sites we will endeavour to stock small quantities of 2151AUS detectors for as long as possible.
