

Date: 8th July, 2009

Affected Products: Noti-Fire-Net Embedded Gateway

Notifier is pleased to announce the release of the new Noti·Fire·Net Embedded Gateway. The Noti·Fire·Net Gateway is an intelligent gateway interface for the ONYXWorks fire monitoring workstation and FirstVision first responder's way-finding tool. This gateway facilitates complete monitoring, control and network diagnostics of a Noti·Fire·Net network.

The embedded gateway is a standalone version and is equipped with IP capability thus enabling ONYX[®] Series users to monitor multiple sites over an Ethernet network without the need for remote workstations.

The NFN-GW-EM-3 is fully compatible and will replace the current model (NFN-GW-EM)
